PROFILE

Java Full Stack Developer with comprehensive training in enterprise Java technologies and modern web development. Proficient in Spring Boot, Hibernate, React.js, and RESTful API development. Strong foundation in Core Java, Servlets, and MySQL. Demonstrated problem-solving through 200+ LeetCode solutions. Quick learner ready to contribute effectively in challenging, growth-focused roles.

EDUCATION

Bachelor of Engineering (B.E.) in Mechanical Engineering, S.A. Engineering College
CGPA: 7.28   2021 – 2025

TECHNICAL SKILLS

Java, JavaScript, SQL
Web Development - HTML, CSS, React.js, JSP
Backend - Spring, Spring Boot, Hibernate, Servlets, JDBC
Database - MySQL, SQL*Plus
Tools - Maven, Postman, Git, Eclipse, VS Code
Concepts: Object-Oriented Programming (OOP), Exception Handling, Collections Framework, MVC Architecture, RESTful APIs

---

PROJECTS

Bus Reservation System Using Servlets, Hibernate & JSP -
Developed a bus reservation system using Servlets for backend logic, Hibernate for database connectivity, and JSP for frontend. Implemented features for real-time seat availability and booking functionality. Designed MySQL database with proper relationships to manage bus routes, users, and bookings. Built responsive user interface using JSP with CSS for styling.

Nalam Construction – Company Website -
Developed a responsive static company website using HTML5, CSS3, and JavaScript. Implemented clean UI with intuitive navigation and mobile-friendly layout using CSS Flexbox and Grid boxes. Deployed and hosted the website on GitHub Pages using Git for version control.

Natural Composite Pipes Prototype -
Designed process to manufacture short pipes using hemp/jute and resin. Conducted mechanical testing to validate structural integrity and performance specifications.

INTERNSHIP

Testing Intern - Bureau of Indian Standards (BIS)   January 2025 – March 2025
Executed standardized product testing procedures per BIS protocols. Maintained detailed documentation of test results and calibration logs. Collaborated with cross-functional teams to support QA reporting and certification processes.

CERTIFICATIONS & ACHIEVEMENTS

Java Full Stack Development - Comprehensive training in enterprise Java technologies
LeetCode - 200+ Problems Solved (Data Structures & Algorithms)
GitHub - Active Open-Source Contributor with multiple full-stack projects
